First international Seminar in Materials and Engineering Structures (ISMES'2024)

Hybrid: face-to-face and virtual

26-27 October, 2024

Scopes

The International Seminar on Materials and Engineering Structures (ISMES'2024) is a meeting of exchanges and debates for researchers and industrialists concerned by the new innovations in composite materials. They encourage also the creation of working and expert's groups according to their activities in order to study the future challenges in the materials domain. The papers submitted can relate to one or more of the topics listed hereafter, they can be extended to new axes in order to ensure a wide diffusion of composite materials in other fields

Topics

- 1-Structures.
- 2-Engineering.
- 3-Materials.
- 4- Renewable Energies

Papers Submission

ISMES'24 open their doors to the papers submitted by the industrialists in order to offer reliable solutions contributing to the resolution of problems in relation with the developed research topics. Moreover, we wish the submission of original papers including Engineering, materials and structures in order to follow the various problems related to the increasing use of materials in varied industry sectors. The proposed papers, written in French or English with Word format are to be sent by e-mail to the secretary according to the following calendar.

Deadlines:

May 15, 2024: Announcement of the seminar

July 30, 2024: Abstract submission deadline.

August 30, 2024: Notification of acceptance.

September 10, 2024 Submission of extended abstracts (Articles).

October 26-27, 2024: ISMES'2024 held

Instructions for Authors:

In order to ensure a uniform presentation of the proceeding, it is necessary to respect the standard presentation defined below. The text of the communication should not exceed a maximum of 6 pages in format A4 (21cm X 29.7cm). The first page will contain the title of the communication (Time New Roman 20, Bolt, Centered) with the authors (Time New Roman 14) and affiliation (Time New Roman 11) in simple line centered followed by an abstract not exceeding 200 words (only one column of 170 mm width) and a maximum of five key words. The pages of the communication are written in Time New Roman 10 points hold in two columns of 8.0 cm width spaced by 1.0 cm with margins of 2.0 cm in left, right, high and low of the page respectively. It is possible to include a graph or a centered table provided that it holds in a column. Equations are centered and numbered at the ends between brackets. The references must be placed at the end of the text per order of their appearance.
